

PATIENT PORTAL

We provide an online Patient Portal to make managing your health care simple and convenient. Our secure portal is a helpful resource to:

- Request appointment times
- Pay statement balances and bills
- Request prescription refills
- Access patient forms before your appointment
- Ask non-emergency medical questions
- Request test results

We still welcome your phone calls, but we offer this service to you as a convenient way to communicate with your care center. The Patient Portal may also be used to contact you.

Please fill out the information below and we will send an invitation to the email you provide. Once you receive the email, click the hyperlink and follow the prompts to set up your account. Be sure to mark us as a safe sender so the emails aren't filtered into your junk folder. **If you created a Portal account before January 1, 2018, you need to create a new account with our improved system.**

Please note your first and last name must reflect exactly how they are listed in our system to activate your account. Should you have any login issues in the future, you can request your username and reset your password through the website.

Preferred Email: _____

Patient name: _____

(Please print clearly)

Patient DOB: ____/____/____
